

22022022

CALLING

The Great Turning Feast

The art of turning the page beautifully

(Call for popular decree)

The Collective **22022022**

November 2020

Introduction

This document proposes to open a collective worksite around a somewhat crazy project, both profound and which does not take itself too seriously. It is somewhere between an absurd idea and a great collective project. It is a call, the expression of an *intention*, open to the *attention* and care that everyone will want to bring to it. As such its scope will depend on all of us !

It is about spreading the idea that on an agreed date, we pass 'officially', by 'popular decree', from the old world to the new world. On this date we will have a big party, a bit like a carnival, free, global, open to all :

THE GREAT TURNING FEAST !

It's about going from the *Great Secret* to the *Great Decree*. What is *secretly* expected by human beings must be *decreed* by them! The change *secreted* by history demands to be *decreed* by the human collective. A bit like the 'bug' of the year 2000, or as in 2012 when we celebrated the end of a world (with the end of the Mayan calendar for those who know), it is here, 10 years later, on 22022022 to celebrate the start of another world !

To present the idea, the plan is structured around 7 questions, including 3 major structural questions, rather general, and 4 cyclical questions which are the development of

the third structural question and which are rather practical and concrete.

These questions are:

- 1) WHAT ?
- 2) WHY ?
- 3) HOW ?
- 4) WHO ?
- 5) WHEN ?
- 6) WHERE ?
- 7) WHAT PROTOCOL ?

With the edition of this calling, we take a tour (a tour on ourselves, a tour of those who want to hear us, a tour of France, a tour of Europe, a tour of the world !!!!!) thanks to transmitters that we hope numerous, in order to present this idea, which is both simple and complex, to as many people as possible.

The idea is simple in itself because it is 'quite stupidly' to celebrate the renewal, to let *express the immense joy* that this inspires in us; but it is also complex in the sense that it requires the best of ourselves, and that this best is not so easy to manifest, requires effort, work on oneself, a lot of openness, tolerance and love so as not to sink into the throes of division.

General principle: there is no enemy except in ourselves, there is no problem, only solutions. *Inclusivity*.

7 big questions :

WHAT ?

What is this about ?

By opening all the senses, all the pores of sensitivity, all the synapses of the brain, all the chakras, by questioning the larger spectrum of ourselves, it occurred to us that in our little personal stories as well as in the Great Collective History, the time has perhaps come to celebrate renewal !

It seems obvious to us today that we are living through a great period of transition, transformation and change.

It seems important to us to underline that this great change appears to us to be the result of a natural, quasi-biological process. A bit like the metamorphosis of the caterpillar into a butterfly, an emerging phenomenon.

This change consists of moving step by step further from a world where we are all frustrated by the general disharmony, whatever our social position, our wealth, our culture, our assets and our titles. Getting to a world where we are all fulfilled, despite the sufferings of life sometimes terrible, by the immense joy that provides a collective momentum towards the construction of a caring worl! Men, women, rich, poor,

mystics, atheists, artists, scientists, seers, fools, etc... all !

A world where the joy of building replaces the overwhelming burden of destruction.

So the idea that came to us is to start a rumor in the hope that it spreads even better than the coronavirus. This rumor consists in saying that a great event is preparing, a great celebration, a celebration of joy and good humor, to act as a way between an old world and a new world.

This big party is a bit of a rite of passage. It is both a *Great Marriage of the Poles* and also a *Great Emancipation*, experienced collectively and each within himself.

The Past and the Future :

- Rite of passage, cut the cord.
- Gratitude towards the past, accept the past, forgive the past mistakes, loving the past.
- Launching and welcoming the future, freeing, structuring, deploying renewal, utter the first cry.
- To discern what dies from what remains.
- Etc...

The Spiritual and the Matériel :

- Opening of our intellect to transcendence.
- Crown chakra → Coronavirus → restoration of the crown: symbol of the divine connection → as if the Covid pandemic were a collective coronation to move from a 'monarchy' to connected democracy.

- Going from intelligence to intuition to wisdom.
- Etc...

The Féminine and the Masculine :

- The recognition and marriage within oneself of the Feminine and the Masculine (Yin and Yang).
- The full and complete place of the Feminine Principle in the governance of world affairs, in the economy (etymology: ancient Greek oïkonomia: management / administration of the house, of the world). .
- The engagement of the Masculine Principle in the connection to the sacred, to the universal, to transcendence.
- Bury the hatchet, end the war of the sexes.
- One through the other and not one against the other.
- Advent of true gender equity.
- Etc...

Déterminism and Destiny :

- Humanity is both the object of forces which exceed it and the result of what humans make of it. The right attitude consists in listening to the energies at work, the weak signals, and to deploy all our capacity of action in the direction of what is blown to us by the universe. It is being aligned. The correct position of the human between Earth and Heaven, between determinism and destiny.
- Etc...

The Individual and the Collective :

- Self-knowledge in the service of building good relationships.
- TPTS (Personal Transition, Social Transition).
- The power and the joy of the collective work.
- Development of all with respect for everyone.
- Positive imagination at the service of the construction of new stories (utopias, happy fictions).
- 'Let's be the change we want to see in the world'.
- 'We are the ones we were waiting for'.
- The power of creative thought.
- Etc...

Humanity and Nature :

- 'We do not defend nature, we are nature which defends itself'.
- Human *is* nature, history is a process of nature.
- 'The Earth does not need to be saved, it needs to be loved'.
- Etc...

The Macrocosm and the Microcosm :

- Consideration of all the 'living' on Earth, all Earthlings.
- Consideration of planets, stars, such as a prolongation of life phenomenon.
- Etc...

North and South :

- The advent of true solidarity.
- Sharing of wealth.
- There is no happiness without peace, there is no peace without justice, there is no justice without sharing.
- Etc...

Young and old :

- Put an end to the sordid consideration which makes these ages dependable categories, useless, unprofitable, subject to formatting, exploitation and plunder.
- Provide a framework of *freedom* for young people, so that their overflowing creativity is expressed for the benefit of all.
- Offer a framework of comfort for the elderly, a space of meditation where they can lavish their wisdom for the benefit of all.
- Etc...

WHY ?

Why have this big party ?

Initially, this question brings us back to ourselves, to what drives us, to what we are. Then, by expansion, we discover how much the landscape of the world confirms and complements this inner reality. Lastly, we see how a great celebration, a ritual, is likely to solve, to release the tensions at stake in this great transition.

A subjective response could be formulated as follows :

- Because having this party is like an inner revolution in us.
- Because having this party resonates in us like a call.
- Because having this party is whispered to us by the universe, which seems to tell us that this is our life mission, our mission on Earth, more than an intuition, a revelation.
- Because having this party sounds like solving the equation of our lives.
- Because having this party frees us and frees our vital energies.
- Because having this party seems obvious to us.
- Because we're ready !

A second, more external response could be :

- Because the world is suffering and imploring a saving rupture.
- Because the exteriorization of renewal can no longer wait.
- Because that renewal needs to become aware of itself, of its power, its scope, its beauty.
- Because the old world is completely sclerotic, inert, helpless, deliquescent, stinking, and we must free ourselves from it.
- Because an explosion of collective joy is a powerful detonator for the immense explosion of renewal that awaits us.
- Because the world is ready !

And yet another way to answer the why :

- Because there is a time to *invoke* the great change and then comes a time to *evoke* it.
- Because this great change, *secreted* by our collective history, demands today to be *decreed* by the human collective.
- Because making a change helps propel it.

HOW ?

How to make this party ?

In the simplest possible way, by preparing it as preparing a party, on our scale, on our term, where we are, with the people around us, whom we love, and who share this enthusiasm.

By bringing together our sensibilities, our knowledge, our know-how to be, know-how to do and know-how to live, to meticulously work out together the framework, the plan of this event, in all its complexity and all its grandeur.

The idea is to start from oneself, to focus, to concentrate, and then to communicate the joy that this party inspires in us by all the means that we can.

We offer some guiding ideas :

- *Courage* : do not let any shadow enter our hearts and minds, no doubt, no suspicion, no fear, let's find our inner child's soul, even if it means feeling momentarily a little naive, there is no stake, we are all free and legitimate, we have nothing to fear, nothing to lose and everything to gain. This seems to us to be the precondition for allowing joy to be expressed.
- *Joy* : this is the basis of the project ; define a space, a *container* for the joy of renewal. Let's put the

content aside for a moment.

- *Harmlessness* : if neutrality supposes an external morality within the framework of which one remains neutral, harmlessness supposes an interior morality, an internal alignment specific to each one. Harmlessness does not dictate any behavior, it results from a perfect alignment within oneself. We believe that to be fair to yourself is to be fair to the world.
- *Detachment* : for us, the path matters more than the result. Humility, giving the best of ourselves by aiming for the best for the whole without depending emotionally on a projection or any result. To delight in small joys as well as big ones.
- *Benevolence* : aware and confident in the common *intention*, the path is made of *attention* to each and everyone, to every detail.
- *Non-belonging* and *non-personification* : no banner, no posture, no claim, no violence, no separatism, no stigmatization, no buy-out, etc ...

WHO ?

This message is for everyone .

This is a call. All involved are *those who feel concerned*, all of those who are inspired by it, all of those who want to celebrate renewal, all the archipelagos of the new world !

Firstly, we call those that we could group under the title of 'link work' such as : coaches of all styles, change and transition guides, facilitators of all stripes, midwives, shamans, sorcerers, bonesetters, algebraists, energy-worker, magicians, doulas, restorers, shrinks of all categories, conciliators, artists, teachers, trainers in collective intelligence, in non-violent communication, positive conspirators, collaboration and cooperation professionals, group project coaches, etc... we are forgetting many, the list is huge and is growing every day !

We also address ourselves to speakers. The free electrons of the transition, network buffs, YouTuber and other geeks, journalists, all independent of course ! That we invite, *if and only if they themselves are excited*, to communicate their enthusiasm by using the leverage of their networks. No personalized, personifying interview. Everyone experience joy in their heart and it's this joy that we communicate. No blabla, no killjoy analysis.

Then we turn to groups of positive actors, committed to service and the common good, in all areas of human activity: social, humanitarian, medical, ecological, economic, legal,

political, artistic, scientific, etc...

Our message is also addressed to *spiritual circles*, to shamans, magnetizers, astrologers, healers, mystics, esotericists. To religious also, although they often already have their own views on the question of the Great Turning Point, some awaiting the Messiah, others the return of Christ, Avatar Kalki, Imam Mahdi, Boudha Maetreyas, etc... Perhaps their expectations will be met, that the messiah will come and be the same for all, thus uniting all the churches of the world ! Who knows ? We are ready for anything !

We are launching a *special appeal to known, recognized, less known, unknown artists*. Musicians, singers, rappers, slammers, visual artists, painters, sculptors, dancers, actors, we invite them to create for the occasion a unique work and to present it on D-Day in their own ecosystem : in villages, neighborhoods, city centers, alternative places, etc... exhibitions, open stages, concerts, shows, and other artistic events: what better way to celebrate the Great Turning ? Hence our subtitle :

THE ART OF TURNING THE PAGE BEAUTIFULLY !

WHEN ?

The key question !

The fact of determining, decreeing, signing a date constitutes in itself the whole issue of our collective exercise. Indeed, it is the fixity of a date that makes it possible to catalyze action, to organize energies, and, why not, to precipitate renewal, or at least to propel it. This is the principle of a ritual of passage. This does not mean that everything will change on that day, not at all (like a birthday, we do not change on D-day, we are the same person the day before and the next day), nevertheless, it is an important moment which allows to free oneself from the past and to release the future.

This question is crucial because it is precisely the one everyone is asking themselves internally, secretly : when is this going to really change ? Will we see change in our lifetime ? When is it moving, when will it all blow up ?

In fact, it all depends on what we are talking about. What scale are we on ? Are we taking a step back ? What relationship do we have with temporality ?

Everyone has their own reading of history. We believe that the phenomenon of the acceleration of History and its precipitation towards a point of crisis constitutes a relatively consensual axis for reading the news.

Is there an identifiable tipping moment ? It depends on each

person's sensibilities.

In short, it's complicated to define a precise moment, but *if we want to party, we have to decide on the date, otherwise we'll never do it !*

So what date to pick for the party ?

It seems to us that it cannot be too long, the time necessary to develop and disseminate the idea as widely as possible. We thought of 2022. More precisely, we thought of 22022022 because of it's aesthetic in writing (palindrome).

We encourage the enthusiastic reader to deepen the work of confirmation, consolidation of the date by its own investigations and analysis around 22022022. It is a matter of deploying in oneself and around oneself the strong feeling that we will make of this event a historic date !

We therefore propose : 22022022

WHERE ?

Around the world and in everyone's heart !

Whoever speaks of a new world speaks of both global and local. Some have put forward the term “glocal”. This party, of course, will not be concentrated in one place, but rather will be non-local, or more exactly multi-local.

The idea is to prefer the multitude of small festive homes rather than to generate large centralized events.

The Great Turning Feast will therefore take place *everywhere, all over the world !* Where people are, where they live, in places of exchange and meeting, in third places, in community cafes, in village squares, at home, in the city, in the countryside , at the beach, in the jungle, etc...

The Great Turning Feast will also take place *inside each of us*. Because it is ourselves who are changing, who are turning the page, thanks to the joy that we amplify !

The Great Turning Feast will also 'take place' on the web, through networks, thanks to 'live' that everyone can post on D-Day, so as to generate a real echo that no one can ignore! *The idea is to generate a buzz !!!*

WHAT PROTOCOL ?

The protocol is FREE !

Everyone and together we can build, co-construct a protocol, the objective of which is to inspire momentum, joy, with a principle of inclusiveness (there is no enemy apart from within ourselves, there is no problem, only solutions).

Toolbox :

- Tools of personal development.
- Tools of impersonal development.
- Tools and methods of collective intelligence.
- Practice of meditation.
- Tools of connection.
- Internet and network tools.
- Free licenses, protection of the common good.
- Tools and method of linkage, facilitation, change and transition management.
- Etc...

There are 2 axis to this project :

- **1st axis** : *communication, spreading* of this call, on the model of contagion, rumor, each in the way that resembles him, with his state of mind, each with the tools of his choice.
- **2nd axis** : the *preparation, the organization* of this

party each in collaboration with their network, friends, giving meaning, content, consistency to this event, each in a way that suits themselves. The most important thing is that it is a party in our heart, in the heart of everyone.

As an example (not a model) :

The local group that we are undertakes to perform different acts. These acts can be reproduced elsewhere and adapted to the way of each one.

- Constitution of a local group.
- Editing of a website / blog / wiki / etc...
- Spreading of this call in other languages, other countries, English, Spanish, Italian, etc...
- Organizing creativity hackathon.
- Creating video teaser to post on social networks.
- Creation of works (paintings, murals, stencils, music, play, etc...)
- Printout of this call for a distribution in targeted locations.
- Etc...

Conclusion

On reading this call, we invite the reader to take time to feel the joy of renewal within himself, in their heart; to take time to methodically, patiently eliminate every 'yes but...' that presents itself to their mind, every shadow that seeks to tarnish the light of this joy.

We invite him to do this exercise as long as necessary, until they feels that there is no valid argument not to attempt the adventure of renewal, to believe in it, to instill a certain confidence, some hope. Until we recognize that this confidence testifies to a real greatness of the mind, and that it would be naive not to be open to it. Recognize that allowing this confidence to build in oneself is the very substance of the transition we are calling.

In order for the Great Turning Feast to happen, may as many of us as possible manifest the Joy of renewal. To show Joy, let our creativity run wild for the making of this historic event !!!
